2. What brought this resource to your attention? My eyes
3. Have you examined the entire resource? No, I would not be able to stomach it
4. What concerns you about the resource? (use other side or additional pages if necessary) although I have not watched the item over
5. Are there resource(s) you suggest to provide additional information and/or other viewpoints on this topic? If you watch it, I think you would agree with me. Frankly I'm appalled that you would even want it in the library.

in question which I consider not having any redeeming social value, about 10 years ago, I read a paragraph review of the book in "Time" magazine which made me ill to my stomach. You may have the book also but the DVD seems so terribly accessible to children.

At the very least if you feel you must carry this type of material, I believe you should keep on an adult request only type of shelf.
